The Halo- When the Animals Awake, Part I

Original title: Glorian- När djuren vaknar del 1
Publisher: Historiska Media, Sweden 2021
Fiction Young Adults / Dystopia
59000 Words

This is a series for fans of white-knuckle dystopian scenarios like *The Day after Tomorrow* and *The Hunger Games*.

The Halo is a dystopian thriller narrated from the viewpoints of four different characters: Annie, an orphan accused of a murder she doesn't remember committing; her friend Walter; ex-meteorologist Ben, now living in the streets; and scientist Caroline. All of them are drawn into a life-threatening web. Can they stop the powers seeking to hush up the reasons for what's happening to society before the animals take over completely?

When the Animals Awake is a two-part series comprising The Halo and The Alley. In these two novels, Hanna Blixt highlights issues that could hardly be more topical – the dark side of the surveillance society and of new technology, against the backdrop of an Earth now totally out of kilter, where extreme weather has become the new normal.
