The Moon Dragons are circling ominously closer and closer to the small village on the mainland where Coraline lives.

For unknown reasons, they have already burned down a couple of villages in the north, and Coraline's village is probably next in line. The only one who can save them now is the dragon tamer, who hasn't been seen for a long time.

Coraline heads to the mysterious island far out in the ocean where the fire-breathing dragons live to search for the dragon tamer. She joins Keelan, a boy from the neighboring village. But when they step ashore on the dark island, they encounter a menacing figure on horseback and realize that the dragons aren't their biggest problem...

The Moonlight Rider is the first part of the new exciting fantasy series: The Moon Dragons.
